

**His Holiness, Pope Francis**

Apostolic Palace  
00120 Vatican City  
April 20, 2015

**Dear Holiness,**

I want to thank you for the enthusiasm, courage and your full support for the Armenian cause across the World by your Sunday Mass, April 12, 2015, recognizing and declaring Armenian massacres during years 1915-1923 as an ethnic cleansing - genocide.

We Armenians worldwide and whole world heard your message with joyful hearts *"It is necessary, and indeed a duty, to honor their memory, for whenever memory fades, it means that evil allows wounds to fester. Concealing or denying evil is like allowing a wound to keep bleeding without bandaging it! And seems that the human family has refused to learn from its mistakes caused by the law of terror, so that today too there are those who attempt to eliminate others with the help of a few and with the complicit silence of others who simply stand by."*

Your Holiness, those evil forces, which you are mentioning have always been on our planet. They have been here 10,000 years ago, 1000 years ago or 100 years ago and they are still here in our time. But today they are not burning us at the stake, but they are killing us with coherent silence of ignorance. And now I am referring not about the genocides of people, but referring about **existing new genocides in fundamental theoretical physics**, even 415 years after the heroic and victorious death of Giordano Bruno.

Your Holiness, the twentieth century starts with revolutionary ideas in physical science, especially in theoretical physics and practical physics, and that is why it is called "annus mirabilis" time. Also during the same time many drastic changes in world events took place which shaped our history till this very day.

Those evil forces who plagiarized ideas from German, French, Dutch, Italian, Scottish, Russian and merely all European scientists in favor of only one person and making him an idol in physics and man of the century, manufacturing him for some evil agenda. Those evil forces have enough power to delete authors name from original submitted articles and mutilate submitted scientific research papers. They also planed the Armenian genocide in our own Homeland – Cradle of civilization. Armenian genocide happens under the cover of the First World War and it was executed by Young Turks Government in Turkey in the years 1915-1923.

Your Holiness, as I understand it, after Heisenberg's quantum theory (1925) and Dirac's relativistic quantum theory (1928) – theoretical physics came to halt. More than eighty five years have passed from those days and no progress has been made in theoretical physics at all. And in that existing long lasting vacuum in theoretical physics, opportunist "physicists" are promoting artificial and false theories like "string theory", "super string theory", "K theory", "big bang theory" and so on, which is leading Europe and the whole world into new dark age.

**But there is always HOPE...**

Dear Holiness, for the past 45 years I have been a dissident scientist trying to prove what is wrong with theory of relativity as we know it now. Also I create many new theories and calling them "Alternative theory of relativity" or "New theory of relativity" and so on. Then I remembered Socrates's wise words **"The secret of change is to focus all of your energy, not on fighting the old, but on building the new."**

That why during the year 2012, when all evil forces were preaching about the end of the world, we declared the year 2012 as a new miracle year and we created **"Armenian Theory of Relativity"**. We registered it in USA Copyright office and GB Copyright Witness office on the exact day of "the end of the world" – December 21, 2012.

**100 years of a new inquisition in Physics is now over and Armenian revolution in science has begun!**

Dear Holiness, I am pleased to inform you and the whole scientific community, that our revolutionary research in theoretical physics entitled “**Armenian Theory of Relativity**” has been published privately as a book and as a short communication article. Our newest articles (c\* and d\*), which I hope must be published very soon, uncovers all hidden and sacred features of our new theory, which everyone has been waiting for so long!

- a) Yerevan State University, Armenia, in June 2013 (98 p., in Armenian), which you can download from here: [https://archive.org/details/arm\\_odm\\_book](https://archive.org/details/arm_odm_book)
- b) Infinite Energy, Vol. 20, Issue 115, Pages 40-42 (2014), which you can download full issue from here: [http://www.armeniantheory.com/atfiles/arm\\_odm/pdf/InfiniteEnergy115.pdf](http://www.armeniantheory.com/atfiles/arm_odm/pdf/InfiniteEnergy115.pdf)
- c) “**Armenian Theory of Special Relativity Illustrated**”, which you can download from here\*: [https://www.academia.edu/7418092/Armenian\\_Theory\\_of\\_Special\\_Relativity\\_Illustrated](https://www.academia.edu/7418092/Armenian_Theory_of_Special_Relativity_Illustrated)
- d) “**Symmetry in Armenian Theory of Special Relativity**”, which you can download from here\*: [https://www.academia.edu/9882404/Symmetry\\_in\\_Armenian\\_Theory\\_of\\_Special\\_Relativity](https://www.academia.edu/9882404/Symmetry_in_Armenian_Theory_of_Special_Relativity)

We have sent above mentioned our articles to hundreds of major scientific magazines all over the globe. But mainstream scientific journals rejected to publish our articles, first because of its titles «**Armenian...**», which we don't like to give up, especially since it has become our scientific brand name. And second because who criticize either - legacy theory of relativity or suggest alternative relativity theories, they just return papers without review.

Dear Holiness, in our research we have succeeded in building a mathematically solid theory of relativity in one dimension for homogeneous and anisotropic time-space continuum and received many amazing relativistic formulas, **which the world has never seen before**. Our new theory and relativistic formulas is an unambiguous generalization of the Lorentz transformation equations and Lorentz relativistic formulas. Our research is the accumulation of all efforts from physicists to build more general transformation equations of relativity in one and three dimensions. This is uncharted territory in theoretical physics where nobody been before.

We are a few steps away from constructing a unified field theory, which can change the face of modern theoretical physics as we know it now and **will bring forth the dawn of a new renaissance in physics and new technological era**.

Using Armenian relativistic formulas we can harness infinite energy from the rest particle's asymmetric momentum-force just as we are harnessing energy from the wind using a windmill. This is a theory which guides scientist how to unleash unlimited and clean energy from vacuum - ether, without burning fossil fuel. We can power spaceships, trains, cars, fabrics and use everywhere in human life here in Earth or other colonized planets.

Your Holiness, please excuse my courage to ask you for a favor to help me to heal the 100 years old shame in theoretical physics by representing our research - “**Armenian Theory of Relativity**” to Nobel Committee for Physics for consideration to nominate Nobel Prize in Physics – **100 anniversary of Armenian genocide**.

Our current articles and upcoming other articles is design to bring new renaissance in theoretical physics and we believe that even few articles can awaken humanity and enlighten the darkness in physics.

Dear Holiness, please address all correspondence concerning our research and published manuscripts to Ministry of Education and Science of Armenia or Physics Department, Yerevan State University and please feel free to correspond with me by the following e-mail address as well ([robert@armeniantheory.com](mailto:robert@armeniantheory.com)).

**This is truly historic time to enlighten the World with Armenian Theory of Relativity.**

With great respect,

**Robert Nazaryan**  
Physics Department,  
Yerevan State University
